WORK EXPERIENCE

Software Developer | Remote — Apr' 2025 - May' 2025
BlueStock Fintech

- Contributed to frontend development, backend services, API integration, and database workflows for fintech web applications to improve scalability and performance.
- Implemented responsive UI components and collaborated with cross-functional teams using Git-based workflows for debugging, testing, and feature enhancement.

PROJECTS

AI Interviewer | AI Mock Interview & ATS Resume Analyzer | GitHub — Mar' 2026 – Present
Tech-Stack: React.js, FastAPI, OpenCV, NLP, Python, JavaScript, Tailwind CSS

- Designed an AI-powered interview platform with ATS-based resume analysis, resume parsing, keyword optimization, and personalized mock interviews for technical and behavioral assessment.
- Enabled real-time speech processing, camera and microphone integration, interview recording, and AI-generated feedback for communication, confidence, and technical performance evaluation.
- Created scalable FastAPI and React-based architecture for dynamic question generation, performance analytics, and intelligent interview assessment workflows.

AI-Driven Vulnerability Detection in Network Topologies via Computer Vision | GitHub — Apr' 2026 - May' 2026
Tech-Stack: FastAPI, React.js, YOLOv8, OpenCV, NetworkX, Python, Recharts, Uvicorn

- Developed an AI-powered vulnerability detection system for network topologies using YOLOv8 and OpenCV to identify high-risk nodes and visualize cyber threats in real time.
- Implemented graph analytics using NetworkX with centrality metrics, explainable risk scoring, and interactive dashboards featuring telemetry, heatmaps, and risk insights.
- Built scalable FastAPI backend APIs and responsive React dashboard with PDF reporting, analytics visualization, and intelligent node-level vulnerability assessment.

Noisy Text Normalizer | AI-Based Text Processing System | GitHub — Oct' 2025 - Nov' 2025
Tech-Stack: Python, BERT, NLP, Transformers, NLTK, Streamlit, Scikit-learn

- Explored an NLP-based noisy text normalization system using a hybrid BERT and Morphological Analysis approach to transform informal social media text into standardized linguistic outputs.
- Evaluated contextual candidate scoring, slang correction, edit-distance matching, repetition handling, and morphological filtering to improve text normalization accuracy and linguistic consistency.
- Deployed an interactive Streamlit dashboard for token-level visualization, confidence analysis, and normalization comparison.

SKILLS

- **Programming:** Python, C++, SQL, TypeScript, JavaScript, Bash
- **Machine Learning:** Scikit-learn, XGBoost, LightGBM, CatBoost
- **Deep Learning & Computer Vision:** PyTorch, TensorFlow, Hugging Face Transformers, BERT, YOLOv8, OpenCV
- **Generative AI & Agentic AI:** LLMs, RAG, Prompt Engineering, Fine-Tuning, LoRA, QLoRA, AI Agents, Agentic AI, LangChain, LangGraph, LlamaIndex, MCP
- **MLOps:** MLflow, Docker, Kubernetes, GitHub Actions, DVC, Weights & Biases
- **Backend/Frameworks:** FastAPI, React.js, Node.js, REST APIs, gRPC, Streamlit, NetworkX, Tailwind CSS
- **Cloud & DevOps:** AWS, Docker, Linux, Google Cloud (BigQuery ML)
- **Developer Tools:** Git, GitHub, Jupyter Notebook, VS Code, PyCharm, Google Colab

CERTIFICATION

- Create ML Models with BigQuery ML (Google Cloud Skill Badge – Intermediate) | **Link** — Apr' 2026
- Networking Basics - Cisco | **Link** — Feb' 2026
- AI & ML for Real World Problem Solving - LPU | **Link** — Aug' 2025
- Machine Learning – Ediglobe (IIT Kharagpur) | **Link** — Jun' 2025

- Machine Learning 5 Project with Python - FreeCodeCamp | **Link** — Apr' 2025
- Privacy and Security on Social Media - NPTEL | **Link** — Feb' 2025

ACHIEVEMENTS

- Solved 300+ algorithmic challenges on LeetCode, demonstrating proficiency in complex data structures. — May' 2026
- Ranked #130 University-wide with a 4-star coding rating and a cumulative technical score of 1000+. — May' 2026
- Campus CEO Intern at CashKaro (₹10K stipend), managing campus and student engagement initiatives. — Apr' 2026
- Implemented multiple AI/ML systems using NLP and Computer Vision. — Mar' 2026
- Attained 1st Runner-up in "Hack and Hunt" College Hackathon, winning cash prizes and certifications. — May' 2024

EDUCATION

- **Lovely Professional University** — 2023 - 2027
  Bachelor of Technology in Computer Science and Engineering; CGPA: 8.01 — Phagwara, Punjab
- **B.N. Public School** — 2022 - 2023
  Intermediate; Percentage: 72 — Gorakhpur, Uttar Pradesh
- **U.S. Central Academy** — 2020 - 2021
  Matriculation; Percentage: 86 — Gorakhpur, Uttar Pradesh
