WORK EXPERIENCE

Software Developer | Remote — Apr' 2025 - May' 2025
BlueStock Fintech

- Contributed to frontend development, backend services, API integration, and database workflows for fintech web applications to improve scalability and performance.
- Implemented responsive UI components and collaborated with cross-functional teams using Git-based workflows for debugging, testing, and feature enhancement.

PROJECTS

AI Interviewer | AI Mock Interview & ATS Resume Analyzer | GitHub — Mar' 2026 – Present
Tech-Stack: React.js, FastAPI, Sentence-BERT, FAISS, RAG, LangChain, Gemini API, Whisper ASR, OpenCV

- Built a Sentence-BERT (all-MiniLM-L6-v2) resume–job matching engine trained on 37K+ pairs, achieving 81.4% F1-score and ~4.5ms CPU inference latency.
- Designed a 4-component ATS scoring engine (ML similarity, skill match, keyword coverage, section completeness) with a live coding round using Monaco editor and secure code execution.
- Built an adaptive mock-interview engine with Whisper ASR transcription and FAISS-based RAG to ground Gemini-generated questions in domain knowledge, delivering 6-dimension performance feedback.

AI-Driven Vulnerability Detection in Network Topologies via Computer Vision | GitHub — Apr' 2026 - May' 2026
Tech-Stack: React (Vite), FastAPI, YOLOv8, OpenCV, NumPy, Tailwind CSS

- Built a custom-trained YOLOv8 and OpenCV pipeline to detect vulnerability hubs in network topology diagrams and visualize high-risk nodes in real time.
- Implemented automated risk scoring based on topological density, centrality, and exposure levels, generating real-time threat explanations (dense connections, clustered hotspots) with remediation guidance.
- Built a FastAPI backend and React dashboard with OpenCV-based heatmap rendering, interactive node analytics, and client-side PDF report generation (html2canvas, jsPDF).

SKILLS

- **Programming:** Python, C++, SQL, JavaScript, Bash
- **Machine Learning:** Scikit-learn, XGBoost, LightGBM
- **Deep Learning & Computer Vision:** PyTorch, TensorFlow, Hugging Face Transformers, BERT, YOLOv8, OpenCV
- **Generative AI & Agentic AI:** LLMs, RAG, Prompt Engineering, AI Agents, Agentic AI, LangChain, LangGraph, MCP
- **MLOps:** MLflow, Docker, GitHub Actions, Weights & Biases
- **Backend/Frameworks:** FastAPI, React.js, Node.js, REST APIs, Streamlit, NetworkX, Tailwind CSS
- **Cloud & DevOps:** AWS, Linux, Google Cloud (BigQuery ML)
- **Developer Tools:** Git, GitHub, Jupyter Notebook, VS Code, Google Colab

CERTIFICATION

- Create ML Models with BigQuery ML (Google Cloud Skill Badge – Intermediate) | **Link** — Apr' 2026
- Oracle Certified Foundations Associate — OCI 2025 AI Foundations (Oracle University) | **Link** — May' 2026
- Computational Theory: Language Principles & Finite Automata Theory — Infosys Springboard | **Link** — Aug' 2025
- Machine Learning Internship – EdiGlobe | **Link** — Aug' 2025
- Privacy and Security on Social Media — NPTEL, IIT Hyderabad | **Link** — Feb' 2025

ACHIEVEMENTS

- Solved 400+ algorithmic challenges on LeetCode, demonstrating proficiency in complex data structures. — May' 2026
- Ranked #120 University-wide on GeeksforGeeks with a 4-star rating and a cumulative technical score of 1000+. — May' 2026
- Campus CEO Intern at CashKaro (₹10K stipend), managing campus and student engagement initiatives. — Apr' 2026
- Ranked #98 in Unstop CodeClash national individual hackathon. — Jun' 2025
- Attained 1st Runner-up in "Hack and Hunt" College Hackathon, winning cash prizes and certifications. — May' 2024

EDUCATION

- **Lovely Professional University** — 2023 - 2027
  Bachelor of Technology in Computer Science and Engineering; CGPA: 8.02 — Phagwara, Punjab
- **B.N. Public School** — 2022 - 2023
  Intermediate; Percentage: 72 — Gorakhpur, Uttar Pradesh
- **U.S. Central Academy** — 2020 - 2021
  Matriculation; Percentage: 86 — Gorakhpur, Uttar Pradesh
